Spotlight Day

Botnar Research Centre for Child Health

30 January 2020
Zentrum für Lehre und Forschung
University Hospital Basel

The inaugural Spotlight Day of the Botnar Research Centre for Child Health (BRCCH) marks the start of our initiative to build a community, both locally and globally, around the central mission of improving the health and well-being of children and adolescents worldwide. The BRCCH is committed to enabling basic and translational research for advancing pediatric healthcare, with an emphasis on implementation in low- and middle-income settings.

The annual BRCCH Spotlight Day will shine light on excellent research in the Basel-Zurich area and around the globe on topics relevant for BRCCH's mission. This annual event will be an opportunity for the local and international community to meet and start new dialogues and enable fruitful collaborations. We thank you for your participation and interest in our activities.

Programme

09.30–10.00	Welcome by BRCCH Directors Prof Georg Holländer and Prof Sai Reddy Opening remarks by President Prof Andrea Schenker-Wicki (University of Basel) and Vice President Prof Detlef Günther (ETH Zurich)
